

There is a wide range of accommodation. Rooms are simply but tastefully furnished, many with views of the Mara. And it is the Mara which is the focus of your stay at

Keekorok. Early morning and afternoon game drives offer animal encounters unparalleled in the world all the year round. Ninety-five species of mammals, amphibians and reptiles have been recorded and over 400 bird species. Nowhere in Africa is wildlife more abundant.

Wildlife videos are screened regularly and there are lectures on the culture and lifestyle of the Maasai people.

If you're after an experience of a lifetime book a hot air balloon safari for an early morning bird's eye view of the Mara and its animals. After an hour of drifting with the wind you land to a champagne breakfast.

Don't miss the Maasai Mara. For a grandstand view of the action, don't miss Keekorok.

KEEKOROK LODGE

MAASAI MARA

Keeekorok Lodge

Keeekorok Lodge, sited in the direct path of the migration, was the first lodge to be built in the Maasai Mara.

At the height of the migration, Keeekorok is surrounded by a swarming mass of animals and there is hardly need to go for a game drive.

For animals, landscape and sheer beauty, the Maasai Mara is the most spectacular of all Kenyan parks and reserves. This 700 square miles of rolling savannah is the place to witness the annual wildebeest migration, one of the great natural spectacles of the world. From July to October every year, 1.5 million animals embark on an epic trek out of the Serengeti to the Mara. Predators which depend on the wildebeest for food follow them.

The result is a concentration of wildlife unequalled

for its numbers and diversity anywhere in Africa.

Keeekorok's charm is its setting, its ease of access from Nairobi and the liberal use of local Sand River stone and cedar wood in its construction. There's a lounge furnished in leather and tartan and a dining room open to the terrace allowing fresh breezes and views of the Mara.

The terrace overlooks mowed lawns and a swimming pool surrounded by bougainvillea and swathes of golden flowers.

A 300m raised walkway winds through the riverine forest in front of the lodge to a thatched sundowner bar overlooking the plains of the Maasai Mara and a pool with resident hippo.

There are no fences around Keeekorok and it is not uncommon to see elephant and buffalo on the perimeter of the grounds or even strolling in.
