## Safari Lodge

Built high on a hillside overlooking the Tsavo East National Park is Voi Safari Lodge, one of the most innovatively conceived and constructed wildlife retreats in the whole of Kenya. From the comfort of the lodge itself, it is possible to view game ambling to and from two nearby waterholes throughout the day, with a vast canopy of billowing clouds scudding across the African sky above. There is a special 'hide' for camera enthusiasts, enabling photographers to take close up images of game animals that are quite oblivious to human presence. An underground tunnel allows visitors to view the game at close quarters during the day or night.

Safari Lodge

Greater in area than Jamaica or Wales, Tsavo is one of the largest game reserves in Africa, boasting more than sixty mammal species within its borders. Voi Safari Lodge is in ideal centre from which to explore the park itself, a sprawling tract of savannah, laced with rivers and waterfalls and teeming with wildlife.

The Lodge offers excellent standards of cuisine and comfort, with all fifty of its rooms having a private bath and shower. It is easily accessible from the Nairobi-Mombasa Road, and is just two hours from the Kenyan coast.
